What is Get Backers ?

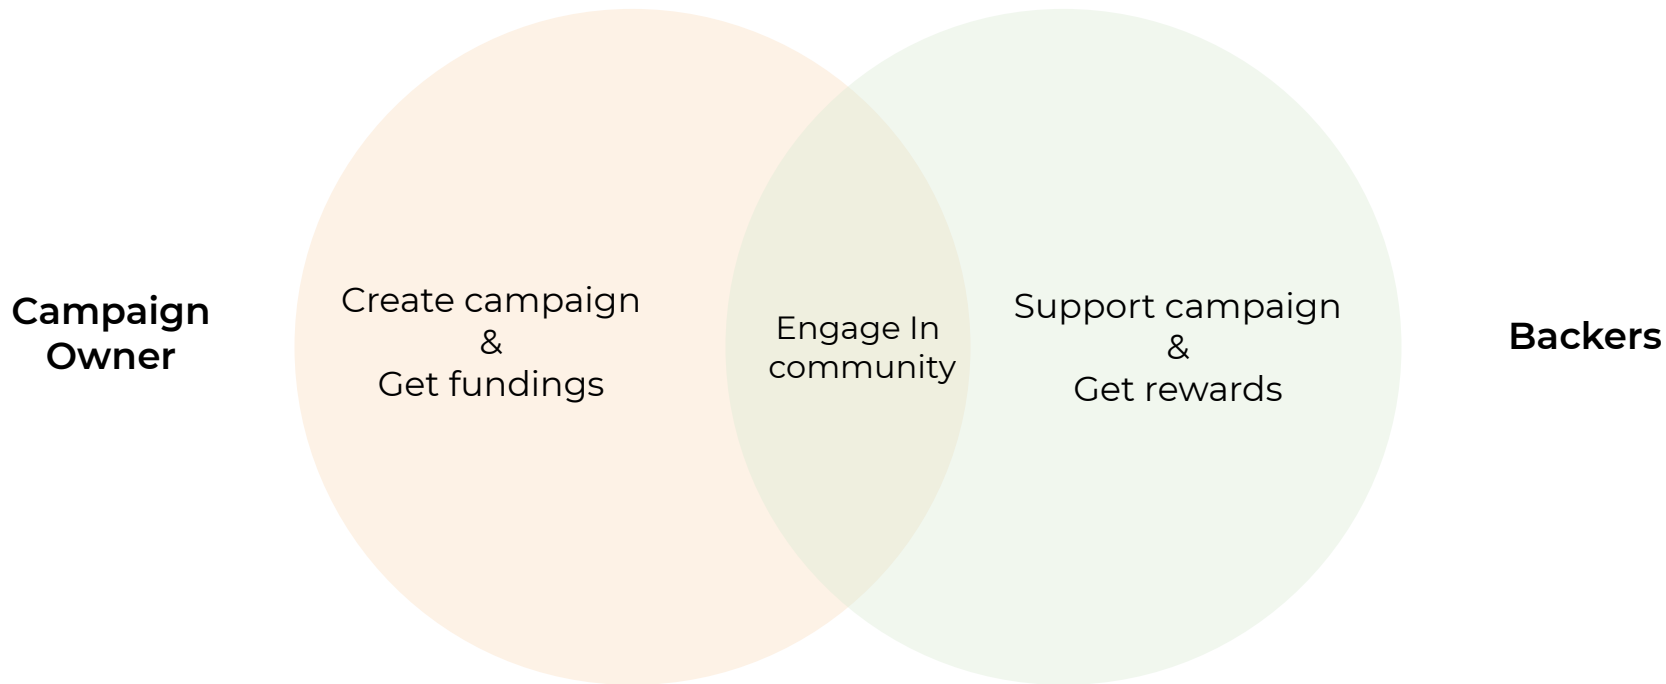

Get Backers is a reward-based crowdfunding platform that brings together experienced innovators as campaign owners that need funds with backers by implementing roadmap based funding.

A Company life cycle is similar with a Butterfly Metamorphosis. They starts from an egg (beginning from zero), becomes a caterpillar (funding), cocoon (rapid growth), and ultimately spreads its wings to fly (maturity).

Get Backers will help craft industry players who are currently in the caterpillar and cocoon stage in their journey to become a majestic butterfly.

What can you do with us?

Campaign Type

Fixed Campaign

Target campaign has to be fulfilled to get the funding

Flexible Campaign

Target campaign does not have to be fulfilled to get funding as long as the campaign owner has capability to fulfill the reward even if only 1 backers backed the campaign

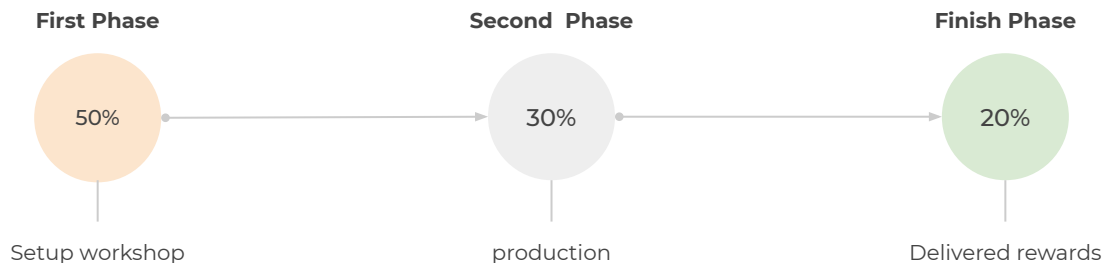

Once the campaign target fulfilled, Campaign Owners will get the funding based on the roadmap proposed.

Example:

Phase 1 → 30 Days → to set up workshop → 50% funds

Phase 2 → 45 Days → production & delivery → 30% funds

Finished phase → all reward has been delivered → 20% funds

Get Backers will hold the last 20% funding until all rewards has been delivered.

The funding in every phase will be eligible based on performance to fulfill previous phase, including update to Backers

Roadmap Based Funding

Community (Social Media) Features

Get Backers have internal social media features to help Campaign Owners to interact with Backers.

Campaign Owners will update their progress to fulfill the reward.

This features open the opportunity of backers & campaign owners to collaborate in deeper level.

The screenshot displays the 'Get Backers' web application interface. At the top, the logo consists of two overlapping rectangles, one orange and one green, with the text 'GET BACKERS' below them. Below the logo is the tagline 'CROWDFUNDING FOR CREATORS'. The navigation bar includes links for 'Explore' and 'Start a Campaign', along with a notification bell, a user profile icon, and the text 'Get Backers Admin' with a dropdown arrow and a notification badge.

The main content area shows a breadcrumb trail: 'Home > Group list > Paladin Luke eBike'. Below this is a large image of a blue and brown eBike. Under the image, the campaign title 'Paladin Luke eBike' is displayed with an 'Admin' role indicator. To the right of the title is a green button labeled 'Invite Members' and a share icon. Below the title, it says 'Public · 5 members'.

A horizontal menu below the title contains four tabs: 'Discussion' (which is active), 'Media', 'Members', and 'About'.

The 'Discussion' tab shows a text input field with the placeholder 'Share something...' and icons for image, video, and GIF uploads. Below the input field is a post from 'Get Backers Admin' with the text 'Get Backers Admin changed the group description.' and a '7 hours ago' timestamp. The post also includes the text 'Nama Perusahaan: Paladin' and 'Nama Campaign Owner: Chandra Wibowo'.

The 'About' tab on the right side of the page shows the text 'Nama Perusahaan: Paladin' and 'Nama Campaign Owner: Chandra Wibowo...' with a 'Read more' link. Below this is an 'Add Members' section with a search bar containing 'RYANDITO MAHE...' and a '+ Add' button.

Campaign Story

Sejak tahun 2018, Jakarta sering sekali mendapatkan peringkat 1 sebagai kota dengan polusi udara terburuk sedunia. Dinas Lingkungan Hidup DKI Jakarta menyatakan 75% penyebab polusi udara di ibu kota ialah emisi kendaraan bermotor. Data tersebut nyata sekali terbukti di bulan Maret 2020, di saat Jakarta dilanda wabah virus Corona, seluruh warga berdirah di rumah berhenti beraktifitas, indeks polusi tidak drastis seakan-akan hilang. Namun di bulan Juni 2020 warna sudah mulai beraktifitas, indeks polusi sudah mulai meningkat.
